Art Unit: 1793

This action is in response to applicants' amendment of 6 February 2009. The amendment to the specification has overcome the objection to the specification. The amendments to the claims have overcome the art rejections and the 35 USC 112 rejections over claims 2, 6 and 28. The 35 USC 112 rejection over claim 21 has been modified in view of the amendment to the claim. Applicant's arguments with respect to the rejection of claim 21 have been fully considered but they are not persuasive. The indicated allowability of claims 22 and 24 is withdrawn in view of the amendments to these claims. Rejections based on the amended claims follow.

Claims 21, 22 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 is indefinite since the definition of B in line 5 does not allow for mixtures and Zr is not listed as one of the elements from which B is selected. Thus the oxides in lines 6 and 7 are not covered by the definition in lines 3-5. Claim 22 is indefinite since line 3 requires niobium to be present, but the formula do not require niobium to be present, i.e. when  $x=2$ . Thus the claim contradicts itself. Claim 24 is indefinite since line 3 requires tantalum to be present, but the formula do not require tantalum to be present, i.e. when  $x=2$ . Thus the claim contradicts itself.

While the specification teaches Nb in  $\text{Sr}_2\text{Nb}_2\text{O}_7$  can be replaced with Ti and Zr; the definition of B in claim 21 does not allow for mixture of elements in the B site nor does it teach that B can be Zr. The rejection over claim 21 is maintained.

Claims 21, 22 and 24 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 1793

These claims would be allowable for the reasons given in the previous action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
